SUMMARY

Fresher Software Engineer with hands-on experience developing full-stack and machine-learning-driven applications utilizing Python, React, and Supabase. Skilled in data structures, algorithms, and end-to-end development to design robust application from database design through deployment. Seeking to apply strong analytical and problem-solving skills to build scalable, production-ready software solutions.

SKILLS

Languages: Python, C++, C, SQL,

Web Development: React.js, HTML5, CSS3, REST APIs, Supabase

Databases: PostgreSQL, MySQL

Machine Learning: Scikit-learn, TensorFlow, Pandas, NumPy

Core CS: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP

Tools: Git, GitHub, VS Code, Jupyter Notebook

PROJECTS

AI Disease Prediction System | *Python, React, Supabase, Machine Learning*

- Built a full-stack disease prediction web application with React frontend and Supabase backend. Trained Scikit-learn classification model on patient records achieving 92% prediction accuracy
- Designed and integrated a Supabase PostgreSQL backend with REST APIs, reducing average query response time
- Created responsive user interface with React.js interface that returned predictions in under [X] seconds, validated through testing

Netflix Recommendation System | *Python, Scikit-learn, Pandas*

- Engineered recommendation system engine processing a dataset of titles to deliver personalized content suggestions for users
- Applied Pandas and NumPy for data preprocessing enhancing recommendation relevance
- Benchmarked Cosine similarity algorithms and selected the best-performing approach, increasing recommendation accuracy

CineHub — AI-Powered Real-Time OTT Content Recommendation Platform | *Python, React, Supabase, fastapi*

- Built a full-stack, production-style streaming content platform built to demonstrate real machine learning, real-time data engineering, and modern full-stack development.
- It aggregates live movie and TV metadata from TMDB, stores it in a normalized PostgreSQL database

EDUCATION

B.Tech - Computer Science & Engineering (AI/ML), Techno India University

2023 – 2027 | Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP, Machine Learning

CERTIFICATIONS

- Machine Learning — IBM
- Deep Learning — IBM
